

Creative Design Architect Scripts

Content List and Official Guide Book

1. Introduction

Welcome to the Creative Design Architect Scripts suite.

This package contains 1,225 procedural automation scripts spanning 5 platforms:

- Adobe Photoshop (245 Scripts)
- Adobe Illustrator (245 Scripts)
- Adobe After Effects (245 Scripts)
- Adobe Premiere Pro (245 Scripts)
- Autodesk 3ds Max (245 Scripts)

All Adobe scripts are built using the ES3 legacy standard to guarantee 100% compatibility across every version of Adobe CC. The 3ds Max scripts use stable MAXScript API calls.

2. How To Use

Adobe CC (Photoshop, Illustrator, After Effects, Premiere):

1. Open your Adobe application.
2. Navigate to File > Scripts > Browse...
3. Select any .jsx file from the respective folder.

Autodesk 3ds Max:

1. Open 3ds Max.
2. Navigate to Scripting > Run Script...
3. Select any .ms file from the 3ds_max folder.

3. Content List & Categories

Each platform's 245 scripts are divided into the following master categories:

Scripts 001 - 049 : Batch Processing

Automated asset pipelines and bulk file management.

Creative Design Architect Scripts

Content List and Official Guide Book

Scripts 050 - 098 : Geometry & Layers

Structural manipulation scripts for dealing with deep layer hierarchies.

Scripts 099 - 147 : Color & Materials

Procedural styling, grading, and material generation.

Scripts 148 - 196 : Text & Data

Typography management and automated data-merge integrations.

Scripts 197 - 245 : System Utilities

Deep system cleanup, environment optimization, and rigorous testing macros.
